COMPANY BULLETIN
NUMBER 1

November 12, 1958

1. This Company, as any military command, is rated on the efficiency and performance of each individual cadet. Therefore it is necessary for each cadet to work for the good of the company, since without the individual cadets good efficiency and performance the company, as a whole, will receive a lower efficiency and performance report.

2. It will be the policy, now and in the future, to issue demerits to individual cadets whose efficiency and performance is found to be poor and which effects the appearance of the company as a whole.
